13 April 1964

MEMORANDUM FOR: The Director

1. Dante Fascell again today stated to me that he felt that the hearings which he ran through his subcommittee recently on the ideological offenses of the United States in his mind had gaps in them. Those gaps relate to the role of the Agency in the cold-war offenses of the United States and how it gets the appropriate policy guidance. Fascell stated he would like very much to get some clarification on this, indicating that he would consider some type of informal briefing for the members of his subcommittee if this were agreeable. Mr. Fascell wound up this part of the conversation by stating he planned to be in touch with the Director directly. 25X1

2. Fascell has been most helpful to the Agency on many occasions.

25X1
